

MEMORANDUM OF UNDERSTANDING (MOU)

MEMORANDUM OF UNDERSTANDING (MOU)

between

**Ministry of Meteorology, Energy, Information, Disaster Management, Environment,
Climate Change and Communications (MEIDECCC): The Government of Tonga**

and

The Secretariat of the Pacific Islands Regional Environment Programme (SPREP)

(together the Parties)

The Kingdom of Tonga, is a Polynesian sovereign state and constitutional monarchy comprising 169 islands, of which 36 are inhabited. The total surface area is about 750 square kilometers scattered over 700,000 square kilometers of the southern Pacific Ocean. Tonga has a population of 100,651 people, of whom 70% reside on the main island of Tongatapu.

SPREP is a regional, intergovernmental organisation comprising 26 members consisting of 21 Pacific Island Countries and Territories and 5 developed countries with direct interests in the Pacific Islands Region. SPREP's mandate is to promote co-operation in the Pacific Islands Region and to provide assistance in order to protect and improve its environment and to ensure sustainable development for present and future generations.

Whereas the Department of Environment and Climate Change (ECC) under the Ministry of Meteorology, Energy, Information, Disaster Management, Environment, Climate Change and Communications (MEIDECCC) is the lead agency for this project in the Kingdom of Tonga. ECC has a mandate to ensure the protection and proper management of the environment and the promotion of sustainable development.

The Parties agree as follows:

1. Purpose

This MOU formally recognizes the intent of SPREP and MEIDECCC to work together on environmental issues.

The purpose of this MOU is to provide a framework of cooperation between the Parties in the fields of biodiversity, waste management, environmental governance and in the Kingdom of Tonga and more widely in the Pacific Islands Region on the basis of climate change equality and mutual benefit.

2. Objectives

The objective of this MOU is to develop a partnership between the two organisations that will, as far as possible, and without limitation:

- Enhance the conservation and management of biodiversity.
- Enhance waste management and pollution control.
- Enhance environmental governance processes and systems.
- Enhance climate change resilience in the Kingdom of Tonga and in the Pacific Islands Region.
- Promote environmental networks within the Pacific Islands Region.
- Develop and implement projects and programmes as appropriate to meet the above objectives. In particular to implement the GEF6 "Strengthening national and regional capacities to reduce the impact of Invasive Alien Species on globally significant biodiversity in the Pacific" activities in the Kingdom of Tonga.
- Share information and resources that will improve the effectiveness of both Parties and the wider Pacific Islands Region in their attempts to conserve marine and terrestrial ecosystems and species.
- Collaborate on, participate in and support special events at regional and global levels relating to the above.

The Parties will collaborate to enhance capacity building and more broadly, assist with best practice in environmental policies and their implementation in the Kingdom of Tonga and in the Pacific Islands Region to ensure international, regional and national environmental objectives and commitments are met.

3. Collaborative activities

The Parties agree, to the extent possible, but without limitation, to:

- Consult each other as appropriate on environmental matters of mutual concern.
- Exchange information on developments and current activities in relation to the environment.
- Collaborate and support awareness-raising efforts in relation to the environment.
- Collaborate on the implementation of global and regional priorities in relation to the environment.
- Collaborate and support capacity-building initiatives in relation to the environment with Pacific island countries and territories in particular with the Kingdom of Tonga.
- Exchange technical information, scientific data and practical experiences regarding biodiversity management including marine protected areas issues.
- Develop activities and projects in the area of biodiversity in the Kingdom of Tonga and in the Pacific Islands Region.

Additional fields of cooperation may be added with the agreement of both Parties.

4. Agreements

Specific work once agreed shall be embodied in separate agreements.

5. Nature of the MOU

- i) This MOU constitutes an expression of shared intention of the Parties to endeavor to develop foundations for achieving their shared objectives relating to the protection of the environment and strengthening the capacity of systems, institutions, organisations and individuals concerned with environmental protection in the Pacific region;
- ii) Unless otherwise agreed each Party's actions under this MOU shall be considered to be that Party's sole and separate action for all purposes, including liability, and neither Party shall claim to be acting on behalf of, or as agent for, the other Party to this MOU;
- iii) This MOU is not governed by international or domestic law and does not constitute, nor is it intended to be a legally binding arrangement, contract or relationship. It does not create any legally binding or enforceable obligations, express or implied. It serves only as a record of each Party's separate intention pending execution of specific agreements governing the undertaking of activities as contemplated by this MOU;
- iv) In executing this MOU, neither Party necessarily commits to any financial or other binding obligation in relation to activities to be carried out under this MOU.

6. Operational Provisions

- i) This MOU shall enter into force on the date the last Party signs.
- ii) This MOU may be amended by agreement in writing between the Parties.
- iii) The duration of this MOU shall be for five years, renewable for such further period as may be agreed between the Parties;
- iv) Any dispute, controversy or difference as to the interpretation of this MOU will be settled amicably by mutual consent between the Parties;
- v) Either Party may terminate this MOU by giving three months' written notice to the other.
- vi) Termination of this MOU will not incur liability for either Party, and will not affect any separate agreements or other legally-binding arrangements in place between the Parties.

Roger Cornforth

Annex 1: PacWastePlus Programme

1. Duration

1. The work will commence from the date that this agreement is signed.
2. The work will finish on 8 September 2024

The description of Work is included in Attachment 1 (PacWastePlus Programme Action Description)

2. Investment

1. The PacWastePlus Programme is subject to the Terms and Conditions of the Pillar Assessed Grant or Delegation Agreement (PAGoDA), and as such is required to manage all Programme Funds directly, and not disperse these funds to third parties unless through a procurement process that follows the approved SPREP Procurement Policy. As such, PacWastePlus programme investment will be managed by the PacWastePlus Programme Management Unit (PMU) on behalf of Department of Environment.
2. Specific details of the Programme investment are included in Attachments 1, 2, 3, and 4 to this Annex.

3. Status of Partner

1. The status of the partner shall be as an agency of equal standing according to the spirit and tenor of the over-arching MOU to which this Annex is attached.

4. Title Rights

1. Other than material purchased by the Partner from the Partner's own funds, any material permanently obtained for the purpose of fulfilling this Agreement shall be the property of SPREP.
2. Unless otherwise stated in this Agreement, intellectual property shall be the property of SPREP.

5. Delay

1. Each Partner must notify the other in writing as soon as the Partner becomes aware of circumstances (including any Dependency or an Extraordinary Event) which may give rise to delay together with an estimate of further time required for the completion of the Services and the Parties will consult in good faith as to how to proceed.
2. In event of any Dependency affecting the Partner's ability to provide the Services and notified under this clause, then the Parties will, as appropriate, also consult in good faith to agree an extension of time, variation to the Services accordingly.
3. The Parties agree that the following are Dependencies under this Agreement:
 - a. Travel restrictions or bans affecting the Partner's ability to travel.
 - b. The ability of the Partner to secure reasonable input from experts and identified stakeholders due to their inability to use video-conferencing facilities.
 - c. Timely provision of all information, approvals and assistance by SPREP that the Partner reasonably requires to provide the Services.

6. Confidentiality

1. Unless otherwise stated in this MOU or as otherwise agreed in writing by the Parties, neither will disclose or use in any way any Confidential Information except to the extent that disclosure or use of such Confidential Information is necessary to enable the Services to be performed.

7. Dispute resolution

1. The Parties shall cooperate to carry out their obligations in good faith and shall endeavor to resolve any disagreement in an amicable manner, including through use of mediation and conciliation processes.

8. Variation

1. This Annex may be varied by written agreement of the Parties.

9. Project Focal Points

1. Mr. Bradley Nolan and Mr. Lance Richman of SPREP, and Ms. Mafile'o Masi, Chief Environmentalist and Head of Division, Waste Management and Pollution Control Division, Department of Environment, Ministry of Meteorology, Energy, Information, Disaster Management, Environment, Climate Change and Communications (MEIDECC) are responsible for managing the Annex delivery of the PacWastePlus Programme, including:
 - a. Managing the relationship between the Parties
 - b. Overseeing the effective implementation of this Annex
 - c. Act as a first point of contact for any issues that arise and,
 - d. Address and resolve any issues in a prompt manner.
 - e. Changing the Focal Point
2. If a Party changes its Focal Point it must tell the other Party, in writing, the name and contact details of the replacement within 5 business days of the change.

10. Counterparts

This Agreement may be executed in any number of counterparts (including by facsimile or electronic copies) each of which, when taken together, will constitute one and the same document.

Should these terms and conditions be acceptable to you, please sign below and return to SPREP.

Mr. Kosi Latu

Director General

Secretariat of the Pacific Regional Environment Programme

Date:

27/8/2021

Mr. Paula Ma'u

Attachment 1: PacWastePlus Programme Action Description

1. PacWastePlus Programme Overview

1.1. Programme Background

The European Union funded PacWastePlus programme, is working with 14 countries in the Pacific region and Timor-Leste, to improve and enhance waste management activities and the capacity of governments, industry and communities to manage waste and reduce the impact on human health and the environment.

1.2. Programme Objectives

PacWastePlus seeks to generate improved economic, social, health and environmental benefits for participating countries arising from stronger regional economic integration and the sustainable management of natural resources and the environment. The programme activities are designed to assist Countries to ensure the safe and sustainable management of waste with due regard for the conservation of biodiversity, reduction of marine litter, health and well-being of Pacific island communities, and climate change mitigation and adaptation requirements.

1.3. Programme Activities

PacWastePlus will work with Department of Environment, the waste industry and the agencies from the Council of Regional Organisations of the Pacific (CROP) to address eight waste stream types: asbestos, e-waste, and healthcare waste, recyclables, organic waste, disaster waste, and bulky waste; and wastewater; to undertake activities that improve the management of waste, and to work towards the delivery of the Cleaner Pacific 2025 Regional Waste Strategy.

1.4. Programme Deliverables

PacWastePlus aims to deliver quality outcomes through the following programme Key Result Areas (KRA):

- **Key Result Area 1:** Improved data collection, information sharing, and education and awareness:
PacWastePlus first Key Result Area will focus on three important aspects:
 - (i) support national and regional decision making by providing relevant accurate data;
 - (ii) provide education and awareness raising to encourage the adoption of good practices in terms of waste management; and
 - (iii) promote innovative waste management approaches through research.
- **Key Result Area 2:** Policies and regulatory frameworks developed and implemented:
PacWastePlus will strengthen the institutional capacity of participating countries by supporting the development of legislations and policies that incorporates institutional arrangements for waste management and leads to improvements in service delivery, private sector engagement and cost recovery of waste management activities.
- **Key Result Area 3:** Best practices, including enhanced private sector engagement and infrastructure development, implemented:

PacWastePlus will provide in-country investment to assist participating countries to implement projects that will improve the management of a chosen waste stream to reduce health and environmental harm.

- **Key Result Area 4: Human Capacity Enhanced:**

PacWastePlus will aim to build human capacity in participating countries, to deliver waste and pollution management that meet good practice standards based on country needs.

1.5. Programme Modality

The PacWastePlus Programme will be implemented through the development of several regional activities managed through the SPREP Programme Management Unit, and specific Country based actions as determined by the Ministry Staff and articulated in this MOU Annex. Details of the various activities are detailed in Sections 2 and 3.

2. PacWastePlus Regional Projects

The PacWastePlus Programme will deliver regional actions to assist participating Countries improve the management of PacWastePlus waste streams not covered by Country Projects (Section 3).

Regional projects have been chosen as they:

- (i) were included as a specific outcome in the PacWastePlus Action Document;
- (ii) identified by Focal Points as they present a significant issue to waste management in Small Islands Developing States (SIDS);
- (iii) seen to provide a significant opportunity to achieve improvement in waste management; or
- (iv) seen to comprise a large portion of the waste stream entering landfills, where intervention is possible to divert these materials.

To maximise waste management benefits and achieve objectives of PacWastePlus Regional Projects, specific activities are required from both parties. These requirements are specified in Table 1.

Table 1: Responsibilities needed for the successful participation in Regional Projects.

| Project | Purpose / Key Activities | Responsibilities of SPREP | Responsibilities of Department of Environment |
|-------------------------------------|---|---|---|
| Health Care Waste Management | <p>The regional project will seek to:</p> <ul style="list-style-type: none"> (i) Identify needs for healthcare waste management infrastructure requirements and seek external funding support to undertake this work. (ii) Assess current healthcare waste management practices throughout the region, in partnership with World Health Organization (WHO) and CROP. (iii) Conduct reviews and assessment of options of alternative technologies, besides incineration, that be utilised for healthcare waste volume reduction and treatment. (iv) Develop training materials for remote and face-to-face delivery. | <p>SPREP will</p> <ul style="list-style-type: none"> (i) Engage consultants to assess options of alternative technologies, develop training materials, develop resource materials, and if needed, support in the creation of healthcare waste management plans and strategies. (ii) Liaise and engage with country focal points to assist with tailoring of activities. (iii) Provide all materials and resources to country focal points for utilisation by government agencies. (iv) Provide support for uptake and implementation of activities. | <p>The Department will:</p> <ul style="list-style-type: none"> (i) Engage with SPREP to assist and inform development of products. (ii) Actively disseminate materials and products to the appropriate staff in appropriate Ministries and facilities, so they can access the resources developed. (iii) Identify staff to participate in training sessions (if offered). (iv) Support the adoption of waste management guidance and creation of appropriate policies and strategies in local hospitals and clinics. (v) Assist with monitoring and reporting on activities. |

| Project | | Responsibilities of SPREP | | Responsibilities of Department of Environment | |
|----------------------------------|---|---|--|---|--|
| | | <p>(v) Develop template healthcare waste strategies, and template hospital healthcare waste management plans.</p> <p>(vi) Develop ongoing resource materials to increase knowledge and awareness on matters relating to healthcare waste management.</p> | | | |
| Asbestos Management | <p>The regional project will seek to:</p> <p>(i) Develop a guidance and drafting note for the imposition of a ban on importation of asbestos containing materials.</p> <p>(ii) Develop a draft Code of Practice for the management of asbestos containing materials.</p> <p>(iii) Develop support documentation on the management of asbestos containing materials (may take the form of brochures, guidance notes, videos etc.).</p> <p>(iv) Disseminate learnings from country projects focused on the management of asbestos containing materials.</p> | <p>SPREP will</p> <p>(i) Engage consultants to develop guidance notes, Code of Practice, and materials.</p> <p>(ii) Provide support and technical advice on the management of asbestos containing materials.</p> <p>(iii) Actively engage with country focal points to promote the management of asbestos containing materials.</p> | <p>The Department will:</p> <p>(i) Utilise materials and support provided to pursue the adoption of legislation / regulation of asbestos containing material bans, and the adoption of a Code of Practice for the management of asbestos containing materials.</p> <p>(ii) Disseminate information through to the appropriate ministries and industry groups to ensure modification and improvement of asbestos management.</p> <p>(iii) Assist with monitoring and reporting on activities.</p> | | |
| Disaster Waste Management | <p>The regional project will seek to:</p> <p>(i) Support the implementation of the Regional Disaster Waste Management Guideline (developed by JPRISM II).</p> <p>(ii) Expand on elements of the guideline to provide greater guidance on management of waste streams not directly addressed in the guideline.</p> <p>(iii) Develop resources to support the implementation of a Disaster Waste Management Taskforce as part of National disaster response.</p> | <p>SPREP will:</p> <p>(i) Engage consultants to develop materials and support the implementation of a trial disaster waste management taskforce.</p> <p>(ii) Actively engage with country focal points to promote the disaster waste management materials and processes.</p> | <p>The Department will:</p> <p>(i) Work with the National Disaster Management Office to mainstream waste management into national disaster preparation and response works.</p> <p>(ii) Actively disseminate information developed to the relevant Ministry and groups to ensure they can access and implement disaster waste management activities and response.</p> <p>(iii) Assist with monitoring and reporting on activities.</p> | | |

| Purpose / Key Activities | | Responsibilities of SPREP | | Responsibilities of Department of Environment | |
|---|--|--|--|---|--|
| Project | <ul style="list-style-type: none"> (iv) Develop resources and systems for disaster waste management embedded in disaster response systems, and trial the activity in one country (selection to be determined). (v) Develop a template community disaster waste management plan (vi) Develop a disaster waste management manual, including practitioner guidelines for the management of disaster waste, and hazardous waste that may be released during disaster events. | | | | |
| Bulky Waste /End of Life Vehicles | <p>The regional project will seek to:</p> <ul style="list-style-type: none"> (i) Develop drafting guidelines for legislation / regulation that manages issues related to end-of-life vehicles, and the issues they pose. (ii) Develop guidelines and resources on the safe dismantling of end-of-life vehicles, to manage health and safety, environmental harm, and increase possibility of recovery and recycling of component parts. (iii) Develop (and possible delivery) of training on the safe dismantling guideline. (iv) Support the implementation of other donor funded end-of-life vehicle activities. | <p>SPREP will:</p> <ul style="list-style-type: none"> (i) Engage consultants to develop materials and resources. (ii) Provide technical support to countries to implement appropriate end-of-life vehicle management activities. (iii) Actively engage with country focal points to promote the materials and resources developed. (iv) Actively work with partner programmes to enhance the activities implemented to assist with the management of end-of-life vehicles. | <p>The Department will:</p> <ul style="list-style-type: none"> (i) Actively engage with SPREP to assist with the development of resources and support packages. (ii) Disseminate information to relevant Ministries and organisations to enhance the management of end-of-life vehicles. (iii) Actively participate in any training provided on the management of end-of-life vehicles. (iv) Support and further the development of legislation / regulation to address issues from management of end-of-life vehicles. (v) Assist with monitoring and reporting on activities. | | |
| Sustainable Financing - Advance Recovery Fee and Deposit (ARFD)) project | <p>The regional project will seek to:</p> <ul style="list-style-type: none"> (i) Enhance and broaden findings from country-based studies by facilitating information exchange. (ii) Develop resources and materials to build awareness of ARFD systems and their benefits for waste management. | <p>SPREP will:</p> <ul style="list-style-type: none"> (i) Engage consultants to develop materials and resources. (ii) Provide evidence-based guidance documents to Governments and Stakeholders to implement a successful ARFD suitable for local context. | <p>The Department will:</p> <ul style="list-style-type: none"> (i) Actively engage with SPREP to assist with the development of resources and support packages. (ii) Disseminate information to relevant Ministries and organisations. | | |

| Project Purpose / Key Activities | | Responsibilities of SPREP | | Responsibilities of Department of Environment | |
|----------------------------------|---|--|--|---|--|
| Project | <p>(iii) Develop decisions support resources to guide the design and implementation of ARFD systems.</p> <p>(iv) Provide Technical Assistance to design and implement ARFD systems.</p> <p>(v) Partner with other donor projects to enhance ARFD activities throughout the region, including the development and delivery on related training products.</p> | <p>(iii) Develop a Decision Support Tool to assist governments to determine if an ARFD is appropriate for their circumstances and to guide its design.</p> <p>(iv) Provide Technical Support (possibly including training) on the design and implementation of ARFD systems.</p> <p>(v) Actively work with partner projects to provide support to countries.</p> | <p>(iii) Assist with the facilitation of training on ARFD systems, including identification of staff to participate.</p> <p>(iv) Provide support to SPREP and Ministries to design and implement an ARFD (if determined suitable for country implementation).</p> <p>(v) Assist with monitoring and reporting on activities.</p> | | |
| Organics Management | <p>The regional project will seek to:</p> <p>(i) Assist stakeholders in each country to design and implement their own organic waste management solutions that suit the local context and audience.</p> <p>(ii) Develop a package of resources any stakeholder can use to design a successful organic processing facility</p> <p>(iii) Develop and deliver online training sessions/workshops.</p> <p>(iv) Disseminate learnings from country projects focused on the management of organics to all Member Countries.</p> | <p>SPREP will:</p> <p>(i) Engage consultants to develop materials and resources.</p> <p>(ii) Provide Technical Support (possibly including training) on organics management and system design.</p> <p>(iii) Provide evidence-based guidance documents to Governments and Stakeholders to implement their own successful organic solutions.</p> | <p>The Department will:</p> <p>(i) Actively engage with SPREP to assist with the development of resources and support packages.</p> <p>(ii) Disseminate information to relevant Ministries and organisations.</p> <p>(iii) Assist with the facilitation of training on organic waste management systems, including identification of staff to participate.</p> <p>(iv) Provide support to SPREP and Ministries to design and implement an organics waste management system (if determined suitable for country implementation).</p> <p>(v) Assist with monitoring and reporting on activities.</p> | | |
| Behaviour Change | <p>The regional project will seek to:</p> <p>(i) Develop resources for countries to utilise to develop and implement community based social marketing / behaviour change campaigns to address waste generation and management issues.</p> <p>(ii) Pilot three campaigns (countries to be determined) to prove concept and provide</p> | <p>SPREP will:</p> <p>(i) Engage consultants to develop materials and resources.</p> <p>(ii) Provide Technical Support (possibly including training) on community based social marketing / behaviour change.</p> | <p>The Department will:</p> <p>(i) Actively engage with SPREP to assist with the development of resources and support packages.</p> <p>(ii) Disseminate information to relevant Ministries and organisations.</p> | | |

| Project | Purpose / Key Activities | Responsibilities of SPREP | Responsibilities of Department of Environment |
|---------------------------------|--|--|---|
| | <p>details of the processes for replication and translation to other issues, communities, and countries.</p> <p>(iii) Disseminate information on pilot projects to all participating countries.</p> | <p>(iii) Provide direct project and financial support to three countries (TBD) to pilot campaigns.</p> <p>(iv) Actively engage with country focal points to promote the materials and resources developed.</p> | <p>(iii) Assist with the facilitation of training on behaviour change programmes, including identification of staff to participate.</p> <p>(iv) Provide support to SPREP and Ministries to design and implement behaviour change programmes.</p> <p>(v) Assist with monitoring and reporting on activities.</p> |
| <p>Capacity building</p> | <p>The regional project will seek to:</p> <p>(i) Enhance capacity development opportunities in the region for waste management by providing appropriate developed training and courses based on country needs.</p> <p>(ii) Identify potential accredited waste management training, competency-based assessments, or hands-on training opportunities currently available to participating countries.</p> <p>(iii) Conduct a needs analysis with participating countries to determine what capacity building they feel they require to appropriately manage waste in their countries.</p> <p>(iv) Undertake a gap analysis to determine what courses and capacity building services may be missing from the region.</p> <p>(v) Design and develop courses, in partnership with tertiary and vocational institutes, the fill capacity building gaps identified.</p> <p>(vi) Where possible, provide capacity building courses to meet country needs.</p> | <p>SPREP will:</p> <p>(i) Engage consultants to develop materials and resources.</p> <p>(ii) Provide opportunities for country staff to participate in capacity building events.</p> <p>(iii) Disseminate information and capacity building resources as they are developed.</p> | <p>The Department will:</p> <p>(i) Actively engage with SPREP to assist with the capacity needs analysis.</p> <p>(ii) Actively promote capacity building opportunities within the Ministry, and with other Ministries that would benefit from participation.</p> <p>(iii) Assist with monitoring and reporting on activities.</p> |

| Project Purpose / Key Activities | | Responsibilities of SPREP | | Responsibilities of Department of Environment | |
|----------------------------------|---|--|--|---|--|
| School Education | <p>The regional project will seek to:</p> <ul style="list-style-type: none"> (i) Mainstream waste management into core school subject's curriculum for primary, and secondary schools. (ii) Undertake research existing school curriculum on waste management. (iii) Develop appropriate resources and materials for inclusion in country curriculum packages. | <p>SPREP will:</p> <ul style="list-style-type: none"> (i) Engage consultants to develop template materials and resources. (ii) Actively engage with country focal points to promote the materials and resources developed. | <p>The Department will:</p> <ul style="list-style-type: none"> (i) Actively engage with SPREP to assist with the review of draft curriculum materials. (ii) Actively modify the draft curriculum materials to ensure they reference, and support, systems and services implemented in their country. (iii) Actively engage with Ministries of Education to determine how best to introduce curriculum materials into the country. (iv) Actively promote the use of integration of the curriculum materials. (v) Assist with monitoring and reporting on activities. | | |
| Waste Licensing | <p>The regional project will seek to:</p> <ul style="list-style-type: none"> (i) Assist in developing mechanisms (such as national licensing and certification) for waste management service providers. | <p>SPREP will:</p> <ul style="list-style-type: none"> (i) Engage consultants to develop materials and resources. (ii) Provide Technical Support (possibly including training) on use of template systems. | <p>The Department will:</p> <ul style="list-style-type: none"> (i) Actively engage with SPREP to assist with the development of resources (ii) Actively engage with the relevant Ministries to tailor and adopt waste licensing systems to manage risk from waste management. (iii) Assist with monitoring and reporting on activities. | | |

3. PacWastePlus Programme Country Actions

The PacWastePlus Programme has allocated project investment to design and implement a project that will improve the management of a chosen PacWastePlus waste stream for Kiribati (hereinafter referred to as **Country Project**).

To achieve the effective delivery of the Country project, specific activities are required from both parties. These requirements are specified in Table 2.

Table 2: Project Implementation responsibilities needed for the successful delivery of the Country Project.

| Key Activities | | Investment (\$USD) | Responsibilities of SPREP | Responsibilities of Department of Environment |
|--|--|--------------------|---|---|
| Adopt appropriate regulations and/or policy to eliminate the importation of asbestos and asbestos containing materials (ACM) into Tonga. | Project activities shall include: | Total US\$71,000. | SPREP will: | The Department will: |
| | (i) Develop an Asbestos ban Regulation. | | (i) Manage the Signed Service Agreements with the Consultants. | (i) Engage in internal consultation with other relevant departments, including the Attorney Generals Office, to gain political support for banning of importation of ACM. |
| | (ii) Develop media resources to raise awareness on asbestos management | | (ii) Manage the procurement of services, including printing of promotional materials for consultations and legislation for cabinet. | (ii) Develop Cabinet papers seeking endorsement to draft the ACM ban. |
| | (iii) Develop promotional materials on ACM management | | (iii) Develop other promotional materials such as factsheets to be used during the consultations. | (iii) Actively engage with the Consultants on work tasks and delivery, that is provide review on the draft legislation or regulation from Consultant, validate the translation work on the law, and provide technical support during national consultations (facilitation and translation when required). |
| | (iv) Cabinet Submission and adoption of the ACM ban in the Kingdom of Tonga. | | (iv) Actively engage with Ministry staff to ensure necessary activity is being undertaken. | (iv) Provide translation on the asbestos promotional materials developed for consultations. |
| | | | | (v) Conduct media engagement programs, e.g., TV and radio talk show, and arrange for media releases |

- to be send out prior to the consultations.
- (vi) Coordinate logistical arrangements for the consultations (i.e., send out invites (if required), arrange venues, etc.
 - (vii) Actively work to have the Asbestos and ACM ban passed through the country legislative system to enable enactment.
 - (viii) Actively provide day-to-day guidance to the Consultants (when needed) on activity.
 - (ix) Provide progress reports to SPREP on activity undertaken to ensure required jobs are completed.
 - (x) Execute monitoring and reporting on activities.

Appropriately enhanced the capacity of local officials and government staff to execute the ACM Regulations.

- Project activities shall include:
- (i) Review and update the asbestos 'Code of Practice'.
 - (ii) Execute training on asbestos removal abatement work (handling and disposal) for Environment staff, and others.
 - (iii) Deliver training / education for Customs and border protection staff.

Total US\$40,000.

SPREP will:

- (i) Manage the Signed Service Agreement with the Contractor.
- (ii) Actively engage with Ministry staff to ensure necessary activity is being undertaken.

The Department will:

- (i) Coordinate logistical arrangements (i.e., send out training invites, book venues and catering), and ensure relevant departments, agencies, contractors, and personnel are engaged on the training activities to ensure appropriate output.
- (ii) Ensure relevant Government staff are engaged on activities to ensure sustainability of resources and capacity building efforts.

| Key Activities | Investment (\$USD) | Responsibilities of SPREP | Responsibilities of Department of Environment |
|---|--|---|--|
| <p>Adopt a Strategic Action Plan which details the short- and long-term management options for eventual removal/abatement of ACM in Tonga and execute the removal of ACM from selected sites in Tongatapu.</p> | <p>Total US\$189,000.</p> | <p>Project activities shall include:</p> <ul style="list-style-type: none"> (i) Safe removal and disposal of ACM from selected buildings in accordance with international standards. (ii) Development of a Strategic Action Plan for short and long-term management of ACM in Tonga. | <ul style="list-style-type: none"> (iii) Actively provide day-to-day guidance and support to the Contractor (when needed) on activities. (iv) Provide progress reports to SPREP on activity undertaken to ensure required jobs are completed. (v) Execute monitoring and reporting on activities. |
| | <p>SPREP will:</p> <ul style="list-style-type: none"> (i) Manage the Signed Service Agreement with the Contractor. (ii) Actively engage with Ministry staff to ensure necessary activities are being undertaken. | <p>The Department will:</p> <ul style="list-style-type: none"> (i) Identify buildings receive ACM abatement activity. (ii) Provide suitably trained staff to assist in the ACM removal in Tongatapu as part of their capacity building. (iii) Provide feedback and comments and approve Contractor outputs where necessary. (iv) Ensure relevant Government staff are engaged on activities to ensure sustainability of resources and capacity building efforts, i.e., knowledge transfer from contractor to staff so outcomes continue to be achieved post project completion. | <ul style="list-style-type: none"> (v) Actively provide day-to-day guidance and support to the Contractor (when needed) on the abatement work. (vi) Provide progress reports to SPREP on activity undertaken to ensure required jobs are completed. (vii) Execute monitoring and reporting on activities. |

Key Activities

Investment (\$USD) Responsibilities of SPREP

Responsibilities of Department of Environment

Legislative Support

In addition to the Country Project, the PacWastePlus programme is able to provide direct support for development of legislative response to key waste management issues

\$30,000

SPREP will:

- (i) Manage the procurement of the services.
- (ii) Manage the monthly task delivery and make payments to consultant.
- (iii) Actively engage with Ministry staff to ensure necessary activity is being undertaken.
- (iv) Ensure required informational resources are provided to consultant for them to be able to deliver quality services.

The Department will:

- (i) Actively engage with consultant on work tasks and delivery, as the consultant is there to provide technical assistance (not necessarily do the tasks for the staff).
- (ii) Establish multi-ministry project taskforce (if needed) to provide necessary information to consultants when undertaking work on legislative activity.
- (iii) Ensure relevant Ministry staff are engaged on activities to ensure appropriate output.
- (iv) Actively work to have outcome recommendations passed through the country legislative system to enable enactment in law or Regulation.

Project Administration

In addition to Country Project activities above, SPREP has requested the EU approve the release of funds to enable the engagement of a consultant to assist with the implementation of the PacWastePlus Programme (hereinafter referred to as National Officer).

Does not exceed

\$50,000

SPREP will:

- (i) Manage the procurement of the services.
- (ii) Manage the monthly task delivery and make payments to consultant.
- (iii) Actively engage with Ministry staff to ensure necessary activity is being undertaken.
- (iv) Ensure required informational resources are provided to consultant for them to be able to deliver quality services.

The Department will:

- (i) Actively manage and monitor the consultant activity and provide day-to-day guidance on activity.
- (ii) Provide monthly reports to SPREP on activity undertaken to ensure required job is completed, and approve payment of monthly fees.
- (iii) Actively engage with consultant on work tasks and delivery, as the consultant is there to provide technical assistance (not necessarily do the tasks for the staff).

Key Activities

Investment (\$USD) Responsibilities of SPREP

Responsibilities of Department of Environment

- (v) Integrate the consultants in the PacWastePlus PMU.
The National Officer (if approved) will be responsible for:
 - (i) Disseminating project materials to relevant Ministry staff.
 - (ii) Providing advice and guidance to country focal points on matters arising from the implementation of the PacWastePlus programme.
 - (iii) Assist with coordinating and implementing national workshops related to PacWastePlus programme activities.
 - (iv) Provide technical support and advice to Ministry staff in relation to PacWastePlus programme activities either directly, or with the support from SPREP project Officers.
 - (v) Provide support services to Focal Point with respect to delivery of the PacWastePlus programme.
 - (vi) Fostering and maintaining excellent working relationships with all project stakeholders.
 - (vii) Manage and encourage meaningful engagement with key project stakeholders throughout the implementation of PacWastePlus project activities.
 - (viii) Assist in developing / reviewing communication and information
- (iv) Ensure relevant Ministry staff are engaged on activities to ensure sustainability of resources from EU (i.e. knowledge transfer from consultant to staff so outcomes continue to be achieved post project completion.
- (v) Assist with monitoring and reporting on activities.

| <p>Capture waste data</p> | <p>Capture waste data, in accordance with the PacWastePlus Data Strategy, SPREP WMPC Regional Waste Monitoring System and the Clean Pacific 2025 reporting mechanism and provide information at least annually by uploading the data to the Country Inform data portal</p> | <p>(i) Provide technical support to country on establishing Waste Data system. (ii) Where included in the PacWastePlus programme activities and budget, support the collection, collation, and analysis of data and information.</p> | <p>(i) Actively participate in data collection activities, including support for consultancies, release of staff to build capacity, participate, and report on outcomes. (ii) Establish and implement systems to capture waste data as 'normal business' utilising SPREP National Waste Monitoring process. (iii) Regularly report on waste data outcomes to PacWastePlus, and SPREP. (iv) Upload all waste data and reports to the Country Inform data portal.</p> |

| Key Activities | | Responsibilities of SPREP | | Responsibilities of Department of Environment | |
|---|--|--|---|---|--|
| Monitoring and Evaluation | Provision and oversight of project activities by governmental staff and personnel to include the long-term inspection, data gathering, and reporting requirements as defined within the project plan | (i) Develop, implement and monitor the PacWastePlus Monitoring & Evaluation Plan. (ii) Work with countries to implement the national monitoring and evaluation activities. (iii) Provide regular updates and reports on the execution of the PacWaste Plus programme | (i) implement the Monitoring and Evaluation Plan as developed for national involvement in the PacWastePlus programme. (ii) Regularly report monitoring data to PacWastePlus. | | |
| Collaboration with other donor agencies | Strengthened collaboration and understanding of other donor agencies and inter-governmental organisations achieving similar goals will provide improved implementation of waste projects. | (i) Provide details and minutes from discussions with other donor agencies and inter-governmental organisations achieving similar outcomes | (i) Provide details and minutes to SPREP from discussions with other donor agencies and inter-governmental organisations achieving similar outcomes | | |
| Ban of asbestos containing materials | A key element of the EU investment in PacWastePlus is to see the implementation of importation bans of asbestos in all countries. Consistent with the endorsement made by SPREP member countries during the 27th & 28th SPREP Meetings, execute a ban through legislation, regulation or policy of the manufacture, use, reuse, import, transport, storage or sale of all forms of asbestos and asbestos containing materials. | (i) Engage consultants to develop guidance notes, Code of Practice, and materials. (ii) Provide support and technical advice on the management of asbestos containing materials. (iii) Actively engage with country focal points to promote the management of asbestos containing materials. | (i) Utilise materials and support provided to pursue the adoption of legislation / regulation of asbestos containing material bans, and the adoption of a Code of Practice for the management of asbestos containing materials. (ii) Disseminate information through to the appropriate ministries and industry groups to ensure modification and improvement of asbestos management. (iii) Assist with monitoring and reporting on activities. | | |

Attachment 3: PacWastePlus Programme National Officer Terms of Reference

Project Officer (Service Based Consultancy) - PacWastePlus Project.

Background and Rationale

SPREP has received funding from the European Union (EU) to implement the PacWastePlus Programme. This project aims to build on previous and ongoing work undertaken by the EU in assisting Pacific island countries improve waste management through the implementation of the Pacific Regional Waste and Pollution Management Strategy 2016-2025 (Cleaner Pacific 2025).

The PacWaste Plus Programme began in 2018 and is well into implementation. With an overall aim for the safe and sustainable management of wastes, the 5-year, €16.5 million programme will benefit the Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Nauru, Niue, Palau, Papua New Guinea, Republic of Marshall Islands, Samoa, Solomon Islands, Timor-Leste, Tonga, Tuvalu, and Vanuatu.

Services Required

SPREP is seeking the services of a suitably qualified Project Officer to be appointed on a full-time service consulting basis to oversee the implementation of the PacWaste Plus in the Pacific Island Countries.

Scope of Consultancy

The Project Officer will provide technical support and on ground project scheduling oversight for the project, including engaging with the local stakeholders in the identified project sites, relevant national and sub-national government agencies and consultants or contractors delivering specific activities.

Specific responsibilities for the Project Officer will include the following:

Data and Information

- Assist MEIDECC and relevant stakeholder(s) with collection of relevant data and information throughout the design, implementation, and monitoring of the Asbestos Removal and Management in Tongatapu, Tonga project. Data and information requirements may include:
 - o designing data gathering methodology and developing templates
 - o Assist with data gathering and compilation.
 - o Assist with completion of Monitoring and Evaluation and weekly/monthly reports.
- Assist with other data gathering activities, such as completion of quarterly assessments, annual mini-waste audit, etc.

Legislative / Documentation Support

- With support from the SPREP PMU and project contractors, assist MEIDECC and relevant stakeholder(s) with legislative tasks such as:
 - o Coordinate stakeholder meetings to facilitate the legislative decision-making process and following-up with stakeholders as required to ensure legislative decision making / approvals keep to agreed timeframes.
 - o Provide input to formal documents such as Policies and Cabinet Submissions for the Asbestos Removal and Management in Tongatapu projects and the asbestos ban

- Drafting contracts and MOU agreements as required and facilitate obtaining relevant signatures.
- Assist MEIDECC and relevant stakeholder(s) with high-level documentation such as:
 - Drafting Health and Safety plans – i.e., for handling of asbestos waste
 - Drafting Standard Operating Procedures – i.e., for Customs officers
 - Drafting other documents as appropriate for the successful implementation of the Asbestos Removal and Management in Tongatapu project.

On-the ground activity

- Assist/facilitate the decision-making process regarding design and procurement of facilities and equipment.
- Provide support to procurement activities such as liaising suppliers, overseeing construction activities, data gathering, etc.
-

Communications and Education

- Assisting with final design of the National Education and Awareness Plan (NEAPS)
- Assisting with delivery of the NEAPS and other communications activities as required for the successful implementation of the Asbestos Removal and Management in Tongatapu projects and the asbestos ban
- Draft media releases and arrange television / radio interviews with relevant stakeholders as required.
- Assist with dissemination of publications produced by SPREP PMU
- Provide on-ground assistance to visiting, local or remote consultants and contractors who are competing activities specific to the Asbestos Removal and Management in Tongatapu project.

Capacity Building

- Assist in planning and provide local support for coordination and attendance of meetings and training on specialist topics such as:
 - Implementation and operation of the Asbestos Removal and Management in Tongatapu project
 - Other topics as advised or approved by SPREP.
- Coordinate and facilitate training sessions (with PMU resources and support) with relevant stakeholders on general topics such as:
 - data gathering, M&E and reporting
 - designing and completing mini-waste audit and litter assessments
 - other topics as advised by SPREP.
- Aid counterparts at MECDMM to enhance evidence-based decision-making.

General / Administrative

- Facilitate Working Committees as required for the design, implementation and monitoring of the Asbestos Removal and Management in Tongatapu project
- Conduct administrative activities of the project including recording meeting minutes, correspondence, filing and photographs.
- Regular submission of reports to PWP
- Outer island travel if/as necessary

Remuneration

- This is a delivery-based consultancy position, and the professional time allocation and annual payment of work is set and is not subject to negotiation.

- The Project officer will be paid TOP 47,300 per annum
- There will be an operational budget for agreed disbursements, including travel and per diem. Travel throughout the focal area will be required and will be paid for through the individual project's travel budget.
- Disbursements will be made monthly on receipt of activity report and approval from MEIDECC, Tonga.
- The consultant will be expected to provide and cover the costs of their own mobile phone, laptop/computer equipment and associated software and stationery as part of the contract agreement.

Work arrangements

The Project Officer will:

- Be based at the MEIDECC Office, on a schedule to be discussed and agreed between the successful consultant, MEIDECC and SPREP PMU.
- Engage in regular meetings with PWP
- Submit monthly reports to PacWaste Plus Programme reporting against agreed workplans. Actively engage and utilise the SPREP WMPC Project Management Tool (Monday.com) Licence to utilise the system will be provided to the successful consultant.
- Provide his/her working equipment including computer and cellular phone.

Duration of the Consultancy

The service consultancy will run from 1 January 2022 to 30 June 2024 commencing as soon as practicable.
